

Vale of Aylesbury Housing Trust Chooses Spider Network's Interactive Residents Portal

Vale of Aylesbury Housing Trust, one of the leading providers of affordable and supported housing for people in the UK enhances their communications strategy with Spider Networks new residents portal

London, July 14, 2009 - Spider Networks Ltd, the power behind interactive web communications, today announces that Vale of Aylesbury Housing Trust (VAHT), one of the leading providers of affordable housing managing over 8,000 homes across Aylesbury, Buckingham and the surrounding villages of the Vale have adopted Spider's i-portal for their tenants and stakeholders.

"We are committed to providing the best communications for our tenants," says Roger Lowe, Marketing Manager of VAHT. "Spider's Residents Portal will add significant value to our tenant involvement strategy. It is a robust pre-built solution that complements our website and can be implemented with little support."

VAHT will soon provide a vibrant, application rich community portal for their members and other stakeholders complementing their website and managed by themselves. i-portal provides a private, members based social network which enables the free exchange of ideas and documents, online Media Centres, an Event Centre, Document Management, Discussion Forums, Chat, Photo & Video Albums, branded Webmail, a branded Homepage with Ticker Tapes, RSS Feeds and Opinion Polls all with a management console giving VAHT complete control of their community portal.

"We look forward to working with Vale, one of the most innovative housing authorities in the UK, says Jim Conroy, managing director of Spider Networks.

"With i-portal, housing authorities and ALMOs can customise a world class collaboration and communication platform for their members in just a few hours. It is more than just a product. They're really providing a stimulating online environment for their residents."

About Spider Networks

Based in the UK, Spider Networks is the power behind interactive web communications. From one integrated online environment, over 1 million registered users in the business, associations, school and consumer markets use Spider's technology to better communicate and interact dynamically within an organisation and beyond.
