

Spider Networks signs up another 18 Schools ranging from Infant Schools to Colleges

18 schools in the UK decide to use Edukit, Spider Networks Managed Learning Environment for their learning portal

May 4, 2007 – Spider Networks Ltd, a leading provider of school communication portals and ePortfolios for LEAs and schools in the UK, today announces another 18 schools have decided over the last 3 months to deploy Edukit, Spider's managed learning environment.

Spider Networks is pleased to announce the following new schools to its growing list of education customers in the UK: Ackworth School, All Saints School, Alsop High School, Broadmead Infants, Cardiff, Criffins School, Devenish College, Eascroft Park Primary, Gosford High School, Grove School, Heronsgate School, Icknield School, Sacred Heart, St. Nicholas, St. Wilfrids, Stonegate School, Thomas Adams and Trinity School.

The consensus across all of these schools is their desire to implement an easy, low cost solution to meet their learning and communications objectives. From a simple need for a secure school branded webmail solution to the fully collaborative school portal each of these schools chose Spider to meet their specific needs. Each school now has their own branded school portal with their school name and logo. Each now enjoys a customized learning portal providing a wealth of applications. A homepage for all the schools announcements and access to RSS feeds and Ticker Tapes keeps everyone informed of all the school's activity. A secure school webmail, file storage, contacts, calendar, website builder, discussion forums, chat and a collaborative area for clubs, subject areas and more.

"We are delighted to see continued demand for our learning platform," says Jim Conroy, managing director, Spider Networks Ltd. "Many schools are now moving to a fully hosted school portal that meets all of their communication needs from one managed portal environment. There is no need for software or hardware, each school provides us with their list of pupils, teachers, administrators and parents and we load up their new learning platform in less than an hour, all at a very low cost to the school."

About Spider Networks

Based in London, Spider Networks is the power behind interactive web communications.
