

East Lothian LEA Renews Contract with Spider Networks

East Lothian LEA, part of Learning and Teaching Scotland, continues to utilize Spider's managed learning environment, Edukit.

London, May 1, 2007 - Spider Networks Ltd, a leading provider of school communication portals and ePortfolios for LEAs and schools in the UK, today announces that East Lothian LEA has decided to continue providing its 35 Primary and 6 Secondary Schools with Spider's Edukit Learning Platform.

Spider Networks has been working in partnership with East Lothian to meet their online learning objectives. All of East Lothian's pupils, teachers and administrators have access to a customized learning portal providing a wealth of applications. A homepage for all the schools announcements, access to RSS feeds and Ticker Tapes keeps everyone informed of all the school's activity. A secure school webmail, file storage, contacts, calendar, website builder, discussion forums, chat and a collaborative area for a myriad of communities of interest provides for a stimulating school online environment.

"Spider Networks provides us with a dynamic school portal that meets the needs of all our 41 schools, says Karen Robertson, ICT Coordinator. "We look forward to getting feedback on Spider's new Primary School user interface. Edukit is simple to use and simple to manage. We are very pleased with Spider's service and always-available portal."

"We appreciate East Lothian's continued support and look forward to working with them to meet their learning requirements," says Jim Conroy, managing director, Spider Networks Ltd.

About Spider Networks

Based in the UK, Spider Networks is the power behind interactive web communications. From one integrated online environment, over 650,000 users in the school, business, ISP and consumer markets use Spider's technology to better communicate and interact dynamically within an organisation and beyond.
