

14 Schools ranging from Infant Schools to Colleges decide to renew their contracts with Spider Networks' Edukit

14 schools in the UK decide to renew Edukit, Spider Networks Managed Learning Environment for their learning portal

May 2, 2008 – Spider Networks Ltd, a leading provider of school communication portals and ePortfolios for LEAs and schools in the UK, today announces another 14 schools have decided to renew their contracts to deploy Edukit, Spider's managed learning environment.

Spider Networks is pleased to announce the following school renewals in the UK: Ackworth School, All Saints School, Broadmead Infants, Cardiff County Council, Criffins Primary School, Devenish College, Grove School, Heronsgate School, Icknield High School, St. Nicholas School, St. Wilfrids Catholic High School, Stonegate Primary School, Thomas Adams and Trinity School.

The consensus across all of these schools is their desire to implement an easy, low cost solution to meet their learning and communications objectives. From a simple need for a secure school branded webmail solution to the fully collaborative school portal each of these schools chose Spider to meet their specific needs. Each school now has their own branded school portal with their school name and logo. Each now enjoys a customized learning portal providing a wealth of applications. A homepage for all the schools announcements and access to RSS Feeds and Ticker Tapes keeps everyone informed of all the school's activity. A secure school webmail, file storage, contacts, calendar, website builder, discussion forums, chat and a collaborative area for clubs, subject areas and more.

"We are delighted to see continued demand for our learning platform," says Jim Conroy, managing director, Spider Networks Ltd. "Many schools are now moving to a fully hosted school portal that meets all of their communication needs from one managed portal environment. There is no need for software or hardware, each school provides us with their list of pupils, teachers, administrators and parents and we load up their new learning platform in less than an hour, all at a very low cost to the school."

About Spider Networks

Based in London, Spider Networks is the power behind interactive web communications.
